

annie higgins

"Singer and songwriter Annie Higgins is a remarkable performer who uses the wisdom she has gained from life as a stylus in creating beautiful music,every musical gesture that Higgins creates is bound in soul." (Music writer Messiah'el Bey)

Perhaps it's a bit old fashioned to put wife and mother up front in a songwriter's bio- yet this is what makes Annie's music so relatable. For so many of us family is at the centre of who we are and brings meaning to life. For Annie Higgins it's what grounds her as a musician and inspires her to write. Annie's songs reflect a deep connection to women making brave choices, juggling work, kids, lives, loss, and dreams each and every day.

Her latest release "Standstill" celebrates the bittersweet times in love. When we long for safe places to fall into, whilst listening to our inner wisdom. This release follows her previous singles- 'Good Things', Livin' and Breathin' and 'There's only Love". Each song transports you into Annie's groove, a level of chilled openness, with an uplifting energy. Ideas of justice, vulnerability and love first, the qualities that allow us to thrive in the face of hardship. Annie's 'feed the soul' lyrics combined with intricate grooves reflect her unashamed values around community and compassion.

Aussie born mother of four, combined the writing and recording of her music with growing a family and the extra demands of moving overseas and interstate with her Australian Airforce partner. In her years as a successful vocal coach, she met like-minded, talented musicians who were keen to collaborate with her to fulfil her dream of releasing a collection of songs from the heart. When performing her songs live, Annie is joined onstage by a band of talented Adelaide Artists: Michael Bishop on Guitar, Kelvin Upton on Bass and Phil Divito on Drums.

This musical collaboration weaves great grooves, delicate hooks and emotive cross rhythms that combine to create Annie's unique sound in stripped back presentation. Her lyrics reveal her honest sassy nature, combined with a taste for cutting edge feminine spirituality. Her songs bubble up from a sense of stubborn hope for the future.
